AQUA LUNG®

Aqua Lung is the name that first introduced the world to Scuba diving in 1943 when Jacques-Yves Cousteau and Émile Gagnan developed the first "Aqua-Lung."

The excitement and adventurous spirit of that first dive continues today and is reflected in Aqua Lung's dedication to quality and innovation in the manufacturing of the world's best recreational and professional scuba diving equipment.

REGULATORS

SMART, INNOVATIVE AND FEATURE-RICH

LEGEND

FEATURES & BENEFITS

The Legend regulators are smart, innovative and feature-rich for the most discriminating divers. These marvels of engineering have unsurpassed performance when it comes to ease of breathing, smoothness and a natural breath feeling. They look sharp and are built to last. The different models have many features in common including:

FIRST STAGE

- ④ Auto-Closure Device (ACD) prevents internal lubrication from washing away. It is safer for elevated percentages of oxygen.
- ④ Unique over-balanced, diaphragm design results in superior performance at depth
- ④ 2 HP ports and 4 MP ports are angled for optimum hose routing
- ④ An environmental dry system keeps water out of the main spring chamber thus preventing ice build-up and keeping silt and contamination out
- ④ Compatible with up to 40% O2 right out of the box

MBS

The MBS is a, simple and effective way to adjust the breathing performance of your Legend. The MBS controls two functions at one time. It controls the direction of air, which alters the venturi effect, as well as changes the opening effort. One control – two functions, it doesn't get easier.

SECOND STAGE

- ④ Pneumatically-balanced second stage results in smooth, easy breathing
- ④ The Comfo-bite mouthpiece virtually eliminates jaw-fatigue
- ④ A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- ④ The ergonomic exhaust tee channels the exhaust bubbles out of your field of vision. The design also contributes to a reduction in exhalation effort
- ④ Attached to a 29" braided Aqua Flex hose. These hoses are lightweight and extremely pliable which eliminates any tugging on the mouthpiece

ACD

Auto-Closure Device (ACD) keeps corrosive water out of the first stage inlet by automatically closing as the regulator is removed from the cylinder valve.

ENTER THE LEGEND

UNSURPASSED PERFORMANCE, SMOOTH AND BUILT TO LAST

LEGEND LUX

AVAILABLE IN YOKE

When you dive with a Legend, you're diving with the best. So why not get one that looks the best too? There is no mistaking the rich look of pink gold. This head-turner exudes quality. The tougher-than-nails PVD finish will keep its good looks too as the pink gold is much harder and durable than traditional chrome plating.

LEGEND LX

AVAILABLE IN YOKE & DIN

If you want the same high performance features and ease of breathing as the Legend LUX but without the pink gold finish, you will find it with the Legend LX. Like the Legend LUX, the Legend LX features the Master Breathing System (MBS).

LX TWILIGHT

AVAILABLE IN YOKE

A top-of-the line, fully adjustable regulator that joins the existing Legend LX. The Twilight Legend LX includes a smaller Comfo-Bite™ mouthpiece to reduce jaw fatigue designed specifically with women in mind. The Legend LX Twilight also features the revolutionary Master Breathing System (MBS) for simple breathing comfort control, and its own regulator bag for safe and stylish storage.

LEGEND COLD WATER

aco
system

LEGEND GLACIA

AVAILABLE IN YOKE & DIN (SPECIAL ORDER ONLY)

The Legend Glacia has been designed for use under the most extreme conditions, yet boasts a breathing performance equivalent to that of the Legend LX Supreme. Comes with lip shield, it offers greater resistance to freezing than any regulator Aqua Lung has ever produced!

The user adjustment knob allows for total control of breathing effort in all diving conditions. Fitted with three heat exchangers: The first completely surrounds the first stage environmental dry chamber; the second is fitted to the medium pressure hose itself; the third is in the traditional position adjacent to the second stage casing. 2 HP ports and 4 MP ports are angled for optimum hose configuration.

Traditional elastomer front covers harden in very cold water, but the Legend Glacia's second stage is designed with an aluminum cover machined from solid metal that assists the heat exchangers and accommodates a purge button with flow control.

REGULATORS

LIFESTYLE REGULATORS

MIKRON

AVAILABLE IN YOKE (BLUE & PINK)

Weighing under 900g, the Mikron is perfect for travel. Its balanced first and second stages produce exceptional breathing performance. A braided hose provides flexibility, comfort and excellent packability. Black/pink version features a smaller Comfo-bite™ mouthpiece designed for smaller mouths, and the detachable silicone bridge fits across the upper palate.

NEW!

acd
system

CORE

AVAILABLE IN YOKE

This new addition to the Aqua Lung family builds upon the ever popular Titan LX. With Aqua Lung's reputable quality and an autoclosure device that seals the first stage as soon as it is removed from the tank the new Core is by far the most feature rich, value driven regulator on the market to date.

TITAN

AVAILABLE IN YOKE

Incorporating all the best features of its predecessors, this third generation Titan has innovative features resulting in a more comfortable, lighter-weight and easier-breathing regulator. For the consumer that wants performance at an affordable price to the dive center that wants a rugged and easy to maintain regulator, the Titan delivers.

REGULATORS

QUICK DISCONNECT

NON-QUICK DISCONNECT

CALYPSO

AVAILABLE IN YOKE

This simple design, with its attractive price, makes this regulator a popular choice for dive lockers as well as new divers. It is compact, lightweight, easy to service and it breathes like a top-range regulator. In-line, high-flow piston design means fewer components, excellent reliability and easy maintenance. Large diameter of piston guarantees a more stable medium pressure output. The 6 large holes in the end cap results in easier cleaning as well as better thermal exchange, thus improving the freezing resistance. Features 1 HP port and 4 MP ports. Mid-size, high performance, demand valve second stage. The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth. Can easily be reversed from right-handed to left-handed configuration by an authorised Aqua Lung dealer without additional parts.

OCTOPUS

YOUR BACK-UP COMPANION

LEGEND OCTOPUS

To compliment the Legend regulator family, this high-visibility, yellow version of the Legend second stage is ideal to complete your system. Pneumatically-balanced to be ideally suited for a Legend over-balanced first stage. The venturi lever prevents unwanted freeflow when not in use. Excellent coldwater performance due to highly efficient heat exchanger surrounding the valve.

GLACIA OCTOPUS

Accompanying the Legend Glacia, this is the complimentary octopus that you need. Aluminum cover machined from solid metal both assists the heat exchangers and accommodates a purge button with flow control. Heat exchangers surrounding the valve and in the middle of the 39" hose provide excellent freezing resistance.

NEW!

CORE OCTOPUS

Mid-size, pneumatically-balanced octopus to compliment the Core regulator. High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency.

MIKRON OCTOPUS

Whether you own a Mikron regulator or not, this travel-friendly octopus is the one you want to take on your next dive trip. Pneumatically-balanced octopus is ideally suited for over-balanced first stages. An inhalation effort adjustment knob allows you to desensitize the unit while it is stowed for the dive preventing unwanted freeflow. High visibility 39" braided, yellow hose and high visibility yellow cover makes it easy to locate in an emergency.

OCTOPUS YOUR BACK-UP COMPANION

ABS OCTOPUS

Innovative, low profile design minimizes drag. Unique 120° angle between hose and mouthpiece is ideal for sharing air with your buddy. High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency. The venturi lever prevents unwanted freeflow when not in use. Custom, quick release mounting clip included. Single units come in display-ready clamshell packaging.

CALYPSO QD

Mid-size, high performance octopus to compliment the Titan and Calypso regulators. High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency. The venturi lever prevents unwanted freeflow when not in use. Can easily be reversed from right-handed to left-handed configuration by an authorised Aqua Lung dealer without additional parts.

CALYPSO NON QD

Mid-size, high performance octopus to compliment the Titan and Calypso regulators. High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency. The venturi lever prevents unwanted freeflow when not in use. Can easily be reversed from right-handed to left-handed configuration by an authorised Aqua Lung dealer without additional parts.

ALTERNATE AIRSOURCE

HIGH-PERFORMANCE SECOND STAGE WITH A POWER INFLATOR

AIRSOURCE 3 QD

The Airsource is a high-performance second stage with power inflator. The ribbed hose makes it easier to pull open the rapid exhaust valve at the top. The second stage valve is pneumatically balanced resulting in consistent breathing from start of dive to end. Ideal for use with over-balanced first stages. "Trim Grip" in the middle of the corrugated hose, allows diver to dump air from BC during ascent without removing the Airsource from the mouth. Using a bayonet mount, the Airsource separates from the BC at the "Trim Grip". Soft-touch purge cover is located on the bottom to avoid activation in strong currents. Low-profile rapid-exhaust valve is activated by pulling on the "Trim Grip" or the lower unit. Corrugated hose has clips and recessed areas to accommodate the mp hose.

AIRSOURCE ADAPTER RING

TO FIT MARES | SCUBAPRO | ZEAGLE

Airsourse Adapter Rings allow you to mount the Airsource breathable inflator to BCs built by Mares, Scubapro and Zeagle. Just because someone has chosen not to dive with the world's best selling brand of buoyancy compensator does not mean that they should be deprived of the best performing breathable inflator. Ditch the standard inflator and octopus and decrease the number of hoses and drag by adding an Airsource to your rig.

DIN ADAPTERS, CONVERTERS & MOUTHPIECES

ADAPTION MECHANISMS TO YOUR CURRENT REG

DIN TO YOKE

Allows you to connect a traditional hose to the Titan / Calypso QC models.

HOSE ADAPTER

Quick connect adapter allows you to connect a traditional hose to the Titan / Calypso QC models.

COMFOBITE MOUTHPIECE

Comes in both regular size and small (as found on the Legend Twilight LX and pink Mikron).

CLASSIC MOUTHPIECE

Available only in regular size.

REG CONNECTORS

DIN ADAPTER, ACD, LEGEND SERIES 2012: #129803

This is for the current Legend series prior to the the new filter placement

DIN ADAPTER KIT, ACD, ORIGINAL LEGEND: #129227

This is for the original Legend series prior to 2012

ACD YOKE CONVERSION KIT, OLD LEGEND, TITAN LX, TITAN: #129226

Converts Legends, Titan LX and Titan with non-ACD yoke connectors to ACD yoke connectors. Uses original yoke and yoke screw

DIN ADAPTER, ACD, TITAN LX (2009-12) / TITAN (2010-12): #128142

This is for the current Titan LX / Titan prior to the the new filter placement

BUOYANCY CONTROL

INTUITIVE DESIGN, IMMENSE COMFORT

THE i3 SYSTEM

FEATURES & BENEFITS

i3 controller

Flat e-valve Technology

SureLock™ II Weight System

GripLock™ Tank Band

Wrapture Harness System

Valve Retention Strap

Knife Attachment Points

Octo-pocket and Octo D-ring

Instrument pocket

Swivel shoulder buckles

WRAPTURE

The Wrapture™ harness system allows you to stand up straight in total comfort while the cylinder remains perfectly vertical and pulled in close.

i3 CONTROLLER

The integrated i3 system provides a single touch control for both inflation and deflation. You simply lift up to inflate and push down to deflate. What could be more simple?

GRIPLOCK

The GripLock tank band and buckle system is a strong, secure system, making attachment to a cylinder easier than ever before. Gone are the days of complicated web weaving and you don't have to worry about pinching your fingers with the innovative finger saver feature.

i3 BUOYANCY CONTROL

FEATURE RICH INFLATION DEVICES

AXIOM i3

XS, SM, MD, ML, LG, XL, XXL

The Axiom i3 is our most comfortable and easy-to-use BC yet. It is a feature-rich, ADV style, wrap-around jacket that incorporates the innovative i3 inflation/deflation system (patented). The integrated Wrapature™ harness system (pat. pend.) allows you to stand up straight in total comfort while the cylinder remains perfectly vertical and pulled in close. Diving has never been this comfortable.

SOUL i3

XXS-XS, SM, MD, ML - BKL/TWI, BLK/CHAR

The Soul i3 is a luxury BC added to the women's line of quality dive products. It incorporates Aqua Lung's most comfortable harness system to date, the Wrapature™ harness. The BC is powered by the intuitive i3 control system. It utilises the GripLock tank band system to keep cylinders secure.

DIMENSION i3

SM, MD, ML, LG, XL

The Dimension i3 is a back inflation BC with an integrated i3 inflation/deflation system. The integrated Wrapature™ harness system (pat. pend.) allows you to stand up straight in total comfort while the cylinder remains perfectly vertical and pulled in close. Loaded with features, this innovative buoyancy compensator is built with high quality materials keeping both comfort and style in mind.

LOTUS i3

XS-SM, ML, ML - BLK/PNK, BLK/CHAR

The Lotus i3 is a back inflation buoyancy compensator with an integrated i3 inflation / deflation system designed and styled just for women. The integrated Wrapature™ harness system (pat. pend.) allows you to stand up straight in total comfort while the cylinder remains perfectly vertical and pulled in close. Diving has never been this comfortable.

BUOYANCY CONTROL

COMFORT & BALANCE

AXIOM

XS, SM, MD, ML, LG, XL, XXL

The Axiom is a durable, full-featured BC that boasts amazing comfort and fit. This ADV style, wrap-around jacket gets its noticeable comfort and support from Aqua Lung's proprietary Wraapture™ harness system (pat. pend.). This comfort, along with the innovative GripLock™ tank band and the SureLock integrated weight system will make the Axiom the new standard for recreational divers.

PEARL

XS, SM, MD, ML, LG

The Pearl is a highly successful mid-level buoyancy compensator with superior fit, comfort and style designed for female divers. With features such as the integrated sports bra (patented), adjustable waistband and wide adjusting shoulder straps, a fine-tuned custom fit is available for women of all shapes and sizes.

BALANCE

SM, MD, ML, LG, XL

Keeping a diver streamlined and comfortable is a snap with the Balance's rear-inflation design and tri-loader harness system.

LIBRA

SM, MD, ML

Contoured shoulders with a removable chest strap, this comfortable BC is perfect for the female diver. Its smaller torso length – uses smaller contour pack on all sizes.

BUOYANCY CONTROL

COMFORT & BALANCE

NEW!

PRO HD

XS, SM, MD, ML, LG, XL

Boasting the reliable surelock II weight release system this integrated BCD has been up spec'd with the addition of the technologically advanced ResisteK material offering unparallel resistance to fade and abrasion. With 5 Stainless D-rings and large utility pockets this BCD can host all the accessories you could ever need.

WAVE

XXS, XS, SM, MD, LG, XL

When you think of the Wave BC, you think of an entry level model that is rugged and fade resistant. With this latest Wave however, you get so much more. You now get a stylish BC that has the clever ability to add weight integration! Dive it in its standard form using a weight belt and then upgrade to weight pockets, featuring our Sure-Lock™ II weight system, whenever you're ready. It's versatile, it's rugged, it's sharp, it's a Wave.

ZUMA

MID/CHAR: XXS-SX, SM-MD, ML-LG, XL-XXL

MID/PNK: XXS-XS, SM/ MD

The fun, travel-friendly ZUMA will find favor with those divers who are tired of paying excess baggage fees. This ultra-light, weight-integrated, back inflation BC has everything you need, yet lacks weight and bulk. Once you lift it, you'll feel for yourself that a size ML/ LG weighs less than 2 kg, with the airway and weight pockets included!

BCD ACCESSORIES

WEIGHT POUCHES, HOSES, KITS

POWERLINE

Increased fill rate; now one of the highest air flows in the industry. Environmentally sealed unit. Integrated hose clips attach to the hose. Cable activated rapid exhaust at the top, simply pull down on lower unit to dump air.

(AVAILABLE FOR WRAPTURE & NON-WRAPTURE BCD'S)

GRIPLOCK

The GripLock™ tank band features innovative Finger-Saver making the GripLock™ safe by eliminating pinched fingers. The macro-adjustment is set just once until you change to a cylinder with a different diameter. The micro-adjustment can be used for fine tuning the fit after the band is on the cylinder. Rubber traction pad on the backside of the GripLock™ provides added security.

MASKS

SUPERIOR FORM, FIT & FUNCTION

AQUA  LUNG®

MASKS FUSED TECHNOLOGY

IMPRESSION

AVAILABLE IN BLK/BLK, CLR/ORN, CLR/WHT, CLR/BLU

This mask uses the latest technologies to provide the ultimate in form, fit and function. Using Micromask technology, the Impression's lens, skirt and frame are molded together in one shot allowing the lens to come close to the face, maximizing the field of vision. Low volume means that the mask is easier to clear and reduces the buoyancy. Advanced Fit Technology (AFT) uses bands of different textures around the edge of the skirt resulting in a superior seal against the face. The mask skirt goes further back on the face increasing the contact surface between face and silicone skirt. This enhances the comfort and reduces the marks left behind on the face.

LINEA

AVAILABLE IN BLK/BLK, CLR/WHT, CLR/PNK, CLR/TWI

A single lens mask made specifically for the woman diver. This mask uses the latest technologies to provide the ultimate in form, fit and function. Using Micromask technology, the Linea's lens, skirt and frame are molded together in one shot, allowing the lens to come close to the face, maximizing the field of vision. Low volume means easier clearing and reduces the buoyancy. Advanced Fit Technology (AFT) uses bands of different textures around the edge of the skirt resulting in a superior seal against the face. The Comfort Buckle System (CBS) prevents the diver's hair from getting tangled in the buckle.

MICROMASK

AVAILABLE IN BLK/BLK, CLR/PNK, CLR/SLV, CLR/BLU

The Micromask is a revolution in mask design. Its innovative, patented structure makes it possible for the lenses to fit in the ocular orbit. Never before have lenses been so close to the eyes. This not only results in an amazingly wide peripheral view but an extremely low internal volume. While scuba divers love it, it is also a favorite amongst the free diving community.

MASKS

COMFORT & CLARITY

TEKNIKA

AVAILABLE IN BLK/BLK

Solid, robust mask with technical divers in mind. The outer frame is made of shock absorbent techno-polymer. The backing rear support is a one-piece molded frame. Assembled with stainless steel AISI 304 nuts and bolts. Cardanic joint buckles (double joint buckles) rotate both up-and-down and in-and-out. Quick counterposed push button activation is easy to use even when wearing gloves.

FAVOLA

BLK/BLK, CLR/BLK/BLU

Guarantees an incredible field of vision. The lenses are at an incline providing a wide angle of view upwards and downwards. Cardanic Joint Buckles rotate both up-and-down and in-and-out, providing maximum adaptability and comfort to any head shape. The quick counterposed push button activation makes the buckle easy to use even when wearing gloves. Strap with larger headpiece provides greater stability and comfort.

INFINITY

BLK/BLK, CLR/SLV. CLR/BLK

A low profile mask with an excellent view upwards and downwards. The side lens is made of an optical quality polymer and offers brighter vision and increased side light. Cardanic Joint Buckles rotate both up-and-down and in-and-out. Quick counterposed push button activation is easy to use even when wearing gloves. Wide headpiece on silicone strap provides stability and comfort.

VENTURA

AVAILABLE IN BLK/BLK

The Ventura mask, a timeless classic with Cardanic Joint Buckles, and a single lens design that provides a wide field of view. The quick, counterposed push button activation makes it easy to release the strap even with gloves on. Single lens is 4mm thick and tempered to ANSI standards.

SPHERA

AVAILABLE IN BLK/BLK

Brought back by popular demand, the extremely low volume Sphera is very popular with free divers around the globe. 100% UVA & UVB protection. Patented Plexisol® lens provides 180-degree visibility. Anti-fog and scratch-resistant coating. Hydrodynamic styling with easy-adjust buckle system.

MASKS

COMFORT & CLARITY

LOOK 2

BLK/BLK, BLK/BLU, CLR/SLV, CLR/BLU

Look 2 is a two-lens mask, complete with patented Cardanic Joint Buckles. It features a silicone strap with a wide headpiece. The close-to-the-cheekbones frame design guarantees an excellent view in all directions. The Look 2 boasts a low inner volume for easy clearing. A clever lens replacement system allows for rapid and easy substitution of the lenses (patent pending).

LOOK 2 OPTICAL LENS

-10.0 TO +3.0 DIOPTRER (IN .5 INCREMENTS)
SOLD AS SINGLE LENSES

+ Lens pictured (bifocal). Lens is full magnification

LOOK

AVAILABLE IN BLK/BLK, CLR/BLK, CLR/BLU

100% hypo-allergenic silicone. Advanced Fit Technology (AFT): alternating matt and polished zones on the skirt. The best water tight seal and comfort. The frame is made of innovative techno-polymers reinforced with inorganic fillers. Shock-resistance, durability. 4 mm tempered glasses, Cardanic Joint Buckles, 100% Silicone strap with enlarged headpiece ensures a good visibility of the diver underwater.

LOOK OPTICAL LENS

-1 TO -10 & +1.5 TO +3 DIOPTRER
(IN .5 INCREMENTS) SOLD AS SINGLE LENSES

+ Lens pictured (bifocal). Lens is full magnification

NEW!

LOOK 2 MIDI

AVAILABLE IN CLR/TWI, CLR/SLV

Made to fit a slim face, the Look 2 Midi is a two-lens mask, featuring a silicone strap with a wide headpiece. The close-to-the-cheekbones frame design guarantees an excellent view in all directions. The Look 2 boasts a low inner volume for easy clearing. The clever Comfort Buckle System prevents the diver's hair from getting tangled in the buckle.

LOOK 2 MIDI OPTICAL LENS

-10.0 TO +3.0 DIOPTRER (IN .5 INCREMENTS)
SOLD AS SINGLE LENSES

+ Lens pictured (bifocal). Lens is full magnification

LOOK HD

AVAILABLE IN BLK/BLK

The Look HD encompasses the quality and knowledge of the Look 2 mask development over the last four decades. This mask combines great technological features and durability with an affordable price.

SNORKEL

SUPERIOR FORM, FIT & FUNCTION

SNORKEL

SHARP DESIGN, COMFORTABLE FIT

NON FLEX

FLEX

IMPULSE 3

NF N-YEL, NF BLU, BLK/SLV, BLK/N-YEL, N-YEL, BLU, WHT, BLK/PNK, BLK/PUR. Since its introduction in 1989, the Impulse has been the best selling snorkel in the world. Today, after continued refinement and evolution, the Impulse 3 is more streamlined and higher performing than its predecessors. The Impulse 3 uses a two-valve system. If a wave breaks over the snorkel, the patented, upper, annular valve directs most of the water out before it even reaches the mouthpiece. Any water that does get past the annular valve drains out the lower valve. In the rare event that you need to clear the Impulse 3 Snorkel, almost no breath is needed, all it takes is an easy puff. Replaceable Comfo-bite mouthpieces eliminate jaw fatigue and an optional, smaller size is available. The Impulse 3 comes in a flex and a non-flex, standard version as well.

ZEPHYR

BLK/PUR, WHI/BLK, WHI/BLU, BLK/ORN

Some features of the Zephyr include: splash guard with purge channel on top of snorkel, elliptical purge valve for clearing reservoir at the bottom, easy, quick-adjust clip for mask attachment, integrated corrugation zone for flexibility, rotating mouthpiece assembly plus a replaceable Comfo-bite hypoallergenic mouthpiece, to eliminate jaw fatigue.

NEW!

AQUILION PURGE

WHI/PUR, BLK/BLU, BLK/BLK, BLK/ORN

The Aquilion Purge features a Bi-material splashguard with side dry chamber for a faster cleaning. The top is made of a TPR soft & safe material. Bi-material corrugate that does not crush and deform. D-shaped barrel sits flat against the face for better comfort. Twin Elliptical Purge Valve (vertical), a Hose Joint Rotation Dry System and Comfobite mouthpieces that are fixed to the air deflector to eliminate jaw fatigue.

SNORKEL

SHARP DESIGN, COMFORTABLE FIT

AIR DRY

AVAILABLE IN BLU, BLK, SLV

One of the best all-round snorkels produced by Technisub. The spray-proof cap reduces the possibility of water from waves and spray getting into the snorkel. The vivid red colour increases visibility from a distance, thereby increasing safety. The high volume water collection section makes purging easy. The mouthpiece can be turned to the most comfortable position in your mouth.

BURAN

AVAILABLE IN BLK

The Aqua Lung Buran Snorkel has an innovative structure made completely from silicone. The single-piece body rotates at the hose joint, allowing positioning to be optimised.

SNAP

AVAILABLE IN BLK

Fantastic travel snorkel, rolls up with compact design. Fits in a BC pocket or can be attached to a BC. All silicone design for flexibility and durability. Regulator quality mouth piece. Secure-Easy™ snorkel keeper is soft and comfortable allowing easy removal from the mask strap.

FINS

SUPERIOR FORM, FIT & FUNCTION

SUPERIOR MOVEMENT IN THE WATER

COMES WITH SPRING STRAPS

SLINGSHOT

SM, REG, XL, AVAILABLE IN BLU AND BLK

The Aqua Lung Slingshot is a revolutionary fin that makes diving more comfortable, efficient and fun. Its innovations include Power Bands, Gear Shift and Mid-foot Flex Joints that all add up to provide a wonderful diving experience. Power Bands release their energy prior to the upstroke providing an added boost of power. Gear Shift customises your speed-to-effort ratio to fit the specific conditions of your dive, three different settings are available. The blade is attached to the foot pocket using two Mid-foot Flex Joints taking the strain off the toes and the top of the anklewhilst providing the blade a significantly larger range of motion, often up to 5 times that of a conventional fin. Available in two colours and three sizes. Comes with a handy, reusable mesh carrying bag.

SHOT FX & X SHOT

SHOT FX - SM, MD, L, AVAILABLE IN TWI

X SHOT - SM, REG, XL, AVAILABLE IN BLU, ORNG AND BLK

The Shot FX and X Shot fins are high-performance fins incorporating new technologies. The Power Zone, located in front of the foot pocket continues to evolve. The powerbands, are now integrated "V Boosters", providing more power with less effort. A spring strap offers a soft TPR heel pad along with Aqua Lung's own proprietary buckles. The foot pocket is equipped with the "Power Transmission Zone". This anchors the foot preventing unnecessary stretching on the power stroke, resulting in maximum energy transmission. The Shot FX foot pocket's design, compounds and sizing are dedicated to women's feet resulting in greater comfort and have a dedicated blade that is shorter and softer making them easier to kick.

HOTSHOT

SM, REG, XL, AVAILABLE IN BLU AND PNK

Designed with the travelling diver in mind, this amazing fin packs power and comfort in a small package. The foot pocket is designed to be worn with bare feet. Unique, self-adjusting Comfo-strap is buckle free. This particular type of elastomer guarantees comfort. Measures only 53 cm overall length, size regular weighs only 1.5 kg. Geared with silicone slings (Power Bands), that are loaded with energy during the power stroke, which they release prior to the upstroke. The gear shift allows the diver to choose the best speed-to effort ratio. Divers can change gear settings while wearing the fins. The rubberized ribs are made of two different elastomeric compounds to provide the greatest elasticity.

SUPERIOR MOVEMENT IN THE WATER

EXPRESS ADJUSTABLE

SM, REG, XL, AVAILABLE IN BLK, BLU

The Express ADJ fin represents the latest in technology and material innovation. Comfort, power and efficiency are the hallmarks of this propulsion machine. The function of the Slingshot power bands has been converted into the Express "Armadillo". Like power bands, it accumulates elastic energy during the down stroke and returns it at the end of each kick cycle. The blade connects halfway back on the foot pocket at the Mid-Foot Flex Joint. The foot pocket provides different thickness zones which properly secure the foot to the blade for maximum energy transfer. Features the ESBS (Ergonomic Strap and Buckle System) and over-sized, anti-slip rubber pads on the bottom of the fin.

CARAVELLE ADJUSTABLE

SM, REG, GIANT, AVAILABLE IN SLV AND BLU

Lightweight fin made from thermoplastic material, providing extraordinary elasticity. Fin blade extends to below the heel, forming an integral unit with the foot pocket for greater strength. Thin, yet strong fin blade is completely bordered in rubber to provide maximum active and passive protection.

ROCKET II

LG, SUPER XL, AVAILABLE IN BLK

One of the first vented rubber fins created with a traditional all rubber design. It is popular with military and professional divers. Rocket II has improved foot pocket design.

SPRING STRAPS AVAILABLE SEPERATLEY

FITS THE SLINGSHOT, X SHOT, SHOT FX, EXPRESS ADJ & CARAVELLE ADJ

SUPERIOR MOVEMENT IN THE WATER

EXPRESS FOOT POCKET

36-37, 38-39, 40-41, 42-43, 44-45, 46-47, BLK/SIL, BLK/BLU
The Express represents the latest in technology and material innovation. Comfort, power and efficiency are the hallmarks of this propulsion machine. The blade connects half-way back on the foot pocket at the Mid-Foot Flex Joint. This eliminates hyper-extension of the toes and ankles. The foot pocket is not only comfortable, it provides different thickness zones which properly secure the foot to the blade for maximum energy transfer. Rubber side ribs channel the water down the length of the fin minimizing the spill-over effect. Over-sized, anti-slip rubber pads on the bottom of the fin.

STRATOS FOOT POCKET

36-37, 38-39, 40-41, 42-43, 44-45, 46-47, BLU, SLV, YEL
The Stratos provides a slightly softer kick than the Express. The dual-material foot pocket offers a Power Transmission Zone to prevent stretching. This provides maximum energy transfer from diver to fin. Dual-material side ribs and blade. The Bending Zone between the blade and foot pocket allows the blade to quickly reach the optimal inclination for propulsion and water channeling.

CARAVELLE FOOT POCKET

4-5, 5-6, 6-7, 8-9, 9.5-10.5, 11-12, BLU, YEL, SLV
Lightweight fin made from thermoplastic material, providing extraordinary elasticity. Fin blade extends to below the heel, forming an integral unit with the foot pocket for greater strength. Thin, yet strong fin blade is completely bordered in rubber to provide maximum active and passive protection.

SOLAFX

8MM

MENS - SM, MD, ML, MLL, LG, LL, LS, XL, XLS, XXL, 3XL. WOMENS 4, 6, 8, 10, 12, 14

Aqua Lung's advanced, coldwater, hood attached, across-the-chest-zip wetsuit continues to evolve and improve. Sharp, new functional graphics on shoulders preventing BC slippage and protecting shoulders from wear. The torso is made of 8mm, four-way stretch Aqua Flex neoprene while the legs and sleeves are made of 7mm Aqua Flex. These are the thicknesses of the base neoprene before the nylon gets added. The attached hood not only prevents cold water from entering the neck, it also features "Vent G2" technology that allows trapped regulator

exhaust bubbles to exit while keeping cold water out. The "Plasmaloc" zipper has tighter tolerances and a unique integrated tooth design that makes the zipper more water resistant than most competitor's models. A water dam covers the neck and shoulders to add another level of thermal protection against any water ingress through the zipper. "Skin-in" gasket seals in the forearms and calves minimize water entry through the sleeves and legs.

The AquaFlex Jumpsuit was developed for bodies in motion. The suit is built with AquaFlex neoprene with three times the stretch of standard neoprene, making it easy to get on and take off. It conforms to your body shape and allows you to move and stretch with minimal restriction. AquaFlex not only boasts great stretching ability but an excellent thermal insulation capacity to keep you warm too. AquaFlex 4-way high stretch neoprene used throughout. Outer fabric is a tighter weave making it more hook and loop resistant while the inner fabric is soft and easy to don. Non-petroleum based neoprene raw material is more environmentally friendly. Heavy duty non-corrosive metal zipper for durability. The 7mm and 5mm versions have a three way zipper seal with integrated spine pad, to minimize water entry and a kidney pad for additional insulation in this high heat loss area.

HYDROFLEX

ECHOZIP

5MM & 3MM

5, 6, 7, 8, 9, 10, 11, 12, 13

New anatomically correct ERGO™ shaped footbed and outsole. Standard neoprene upper with exterior thickness markings. Hook & loop zipper lock keeps zipper in place.

ELLIE ERGO

5MM

5, 6, 7, 8, 9, 10

Super stretch upper is shaped to accommodate a woman's lower calf. Zipperless entry eliminates water exchange & heat loss with triple glued & blind-stitched seams are water tight. ERGO™ shaped footbed and outsole. Protective toe, instep and heel cap for added durability. Custom molded rubber outsole.

GLOVES

PROTECTION & COMFORT

KEVLAR ALEUTIAN

3MM

XS, SM, MD, LG, XL

Durable Kevlar on palms, fingers and back of fingertips for superior abrasion resistance. Thermal FLEX 4-way stretch neoprene panels provide exceptional comfort and warmth. Pre-curved fingers and ribbed glove-back work together to eliminate hand fatigue. Bell cut wrist opening allows for trouble-free entry and accommodates wetsuit cuffs comfortably.

THERMOCLINE

5MM & 3MM

XS, SM, MD, LG, XL, XXL

Standard neoprene with glued and blind-stitched seams with ergonomically designed pre-curved fingers help minimize hand fatigue. Rubberized coating on palm for durability & added grip. Adjustable cinch closure at wrist.

AVA

3/2MM

SM, MD, LG

The Ava gloves are designed with longer and narrower palms and fingers, to anatomically fit the female hand, and a rubberized pattern for an excellent grip. The Ava has triple glued blind-stitched seams for optimal comfort and warmth.

KAI

2MM

XS, SM, MD, LG, XL

Made of 2mm HS200 high stretch neoprene that stretches to over 200% of its original size for exceptional comfort, fit and dexterity. Reinforced polysuede palm with molded pull-on entry tab.

WATERFALL

2MM

XS, SM, MD, LG, XL

Made of 2mm HS200 high stretch neoprene that stretches to over 200% of its original size for exceptional comfort, fit and dexterity. Reinforced polysuede palm with molded pull-on entry tab.

DRYWEAR

WARMTH, FLEXIBILITY & COMFORT

WHITES DRYWEAR HAS JOINED THE AQUA LUNG FAMILY.

Whites Diving has a proud tradition of product innovation, quality, performance and comfort that allow divers to have truly memorable diving experiences that last a lifetime. These shared qualities between such kindred diving spirits made uniting our brands an effortless process.

These traditions will continue as Aqua Lung welcomes White's drywear to the family to offer divers around the world an unparalleled, premium product range.

REPLACEMENT NECK AND WRIST SEALS AVAILABLE FOR ALL DRYSUIT
SIZES SMALL AND REGULAR

FUSION BULLET

SIZES S/M, L/XL, 2XL/3XL, 4XL+. AVAILABLE IN LATEX OR SLT
Originally designed for the Special Forces, the Fusion Bullet is engineered for the harshest diving environments. Super stretch neoprene allows ultimate flexibility and streamlining while strategically placed Gator Tech armour and reinforced seams ensure maximum durability. Bullet seams are mauer taped and 6 thread sewn for maximum stretch and durability. Includes 2 Twin-Zip expandable pockets, rugged Gator Tech neoprene on the knees, elbows, shoulders and buttocks extends the life of the skin for use in the most extreme dive conditions. Removable 2mm neoprene inserts at the elbows and knees provide cushioning. Super stretch neoprene provides extreme stretch for maximum flexibility.

FUSION TECH

SIZES S/M, L/XL, 2XL/3XL, 4XL+
Take your diving to the next level with the Fusion Tech. The Tech skin incorporates 1mm neoprene in high wear areas providing durability, while strategically placed lycra stretch panels provide incredible flexibility. This optimal combination creates the perfect marriage of mobility and durability. The Tech Skin attaches and removes easily from the DryCore via Velcro fasteners at the wrists, ankles and zipper. All seams flat locked sewn for stretch and durability. PU coated knees provide excellent abrasion resistance. Expandable bellows thigh pockets included. Deluxe suspender system with thermo formed back pad.

FUSION ONE / ESSENCE

SIZES: S/M, L/XL, 2XL/3XL, ESSENCE XS, SM, M, ML, L,
Fusion ONE and ESSENCE offers Fusion DryCORE warmth, flexibility, and comfort. It's the perfect option for divers who want the comfort of a Drysuit at a price that won't break their budget. Including matching Apeks valves, rear entry zipper, abrasion resistance in high wear areas and heavy duty Lycra panels in high stretch areas. This optimal combination creates the perfect marriage of mobility and durability. All seams flat locked sewn for stretch and durability. The Skin is designed with 1 mm neoprene for added abrasion resistance in high wear areas and heavy duty Lycra panels in high stretch areas. The Skin attaches and removes easily from the DryCore via Velcro fasteners at the wrists, ankles and zipper.

DRYWEAR

WARMTH, FLEXIBILITY & COMFORT

THERMAL FUSION

S/M, L/XL, 2XL/3XL, 4XL+

A high performance diving undergarment, maximizing warmth, and providing unrivaled flexibility and fit. Cold water immersion and controlled cold weather environmental tests determined effectiveness in protecting skin and core temperatures with a Polartec 200 fleece core and an outer power stretch compression skin. Thermal Core Technology is at the heart of the thermal Fusion, resulting in an undergarment that is unmatched in flexibility, fit and warmth. Sizes: Available in unisex

HEAT HOOD (ZIP)

SM, MD, LG, XL

Loaded with innovative features, the HEAT Series Hoods are the ultimate in neoprene dry suit hoods. Featuring 7mm neoprene side panels, 5mm forehead, and 5mm chin offers extra warmth and supreme comfort.

HEAT HOOD (NON ZIP)

SM, MD, LG, XL

7mm neoprene side panels, 5mm forehead, and 3mm chin offers optimum warmth, supreme comfort while eliminating jaw fatigue.

FUSION BOOTS

5/6, 7, 8, 9, 10, 11, 12, 13/14

Designed to mate with the Fusion Drysuit, the 2 layer Fusion boot sets a new standard in drysuit comfort and performance.

EVO3 BOOTS

5/6, 7, 8, 9, 10, 11, 12, 13

The EVO3 boot was designed in conjunction with the military for use on wet, slippery decks, finning for swimming and running on wet rocky shores.

FUNCTION, DESIGN & EFFICIENCY

LED LUMEN SOLO

The Lumen Led uses 4 low energy consumption LEDs with high lighting efficiency. It is fitted with an electronic circuit that ensures the best power supply and protects the LEDs. The power supply is provided by 6 C size, batteries providing more than 8 hours autonomy. The metal lighting head, with its 4 LEDs and electronic circuit, is completely watertight and provides added protection against accidental water infiltration.

LUMEN HALOGEN

The Lumen Halogen has excellent high lighting efficiency. It is fitted with an electronic circuit that ensures the best power supply for prolonged underwater use. The power supply is provided by 6 C size, batteries providing more than 8 hours autonomy.

SQUEEZELOCK

CHARCOAL/YELLOW, BLUE, TWILIGHT

3" blade, overall length 6.5", 304 series stainless steel, locking mechanism securely locks knife in sheath, but releases easily with a squeeze of the handle. Includes variable mounting options: hose mounting straps are included for mounting to the BC inflator hose. Locking belt clip is integrated into sheath for attaching knife to webbing. Sheath has molded strap slots for use with optional rubber leg straps.

SQUEEZELOCK ^{TITANIUM}

CHARCOAL

3" blade, overall length 6.5", high grade beta alloy titanium, locking mechanism securely locks knife in sheath, but releases easily with a squeeze of the handle. Includes variable mounting options: Hose mounting straps are included for mounting to the BC inflator hose. Locking belt clip is integrated into sheath for attaching knife to webbing. Sheath has molded strap slots for use with optional rubber leg straps.

DRYBAGS

FUNCTION, DESIGN & EFFICIENCY

NEW!

DEFENSE XL

105 LTR

We made this bag big and rugged so you don't have to worry if everything will fit. The dive checklist on the opening will help you remember your important gear. The gray color will keep the temperature of the bag a cooler than a darker bag if left in the sun. The waterproof seams won't leak in your car on the way home after your day of diving, and the two drain valves help you rinse your gear in the bag.

DEFENSE DUFFLE

85 LTR

This rugged, pit bull of a duffel, has waterproof seams to keep your favorite gear completely dry on any dive adventure. With 85 liters of carrying capacity, the bag is designed to carry a full set of dive gear, including your BC. The grey color will stay cooler than darker colored bags. When the dive is over, use the drain on the side of the bag as a rinse bucket and fill the bag with all your wet gear - the water won't leak out.

DEFENSE PACK

50 LTR

Hauling dive gear through an airport, dragging it across a hotel lobby, and hiking it on a half mile trail to your dive location has never been easier with the Aqua Lung Defense Pack. The backpack straps feature an ergonomic shape and 3D mesh for added padding. All the seams on this bag are heat welded and waterproof. If you need more room or a spare dry compartment, the loop on the front of the bag is used to hang the smaller Aqua Lung Defense Bag. Capacity 50 ltr
